🕒 TOTAL WORK EXPERIENCE – SINCE 11 AUG 2014

11 YEARS 10 MONTHS+

// ABOUT ME

As a highly skilled and experienced programmer, I am excited to bring my passion for computer graphics, 3D and interactive development to new opportunities. With a focus on methodology and structure, I am proficient in C# and adapt to other languages as needed. Beyond game development, I push the limits of 3D for interactive visualization, simulation, and robust AR, VR, and MR applications. I am a self-starter with a pragmatic approach and a strong sense of product ownership.

AGE	32 years

C# PROGRAMMING	90%	PROFESSIONAL TRAINER	80%
AZURE CERTIFIED (AZ-900, AZ-104)	85%	PROJECT MANAGEMENT	85%
UNITY 3D – SHADERS & A.I	75%	FULL STACK DEVELOPER	75%

// WORK EXPERIENCE

WORKSTREAM LEAD — SOFTWARE ENGINEERING — National Oilwell Varco (NOV) CURRENT

JUL 2023 - PRESENT

Lead the engineering workstream for the **Corporate Application Services (CAS)** domain — owning the design, development, and full lifecycle of in-house enterprise applications, including internal mobile apps used across the organization.

- Own and govern a portfolio of **70+ application repositories**, driving code standards, branching strategy, and release hygiene across teams.
- Architected and deployed an in-house **Secret Manager** that securely stores, rotates, and serves company secrets and credentials across services.
- Designed and built automated **cron jobs** for scheduled data syncs, maintenance, and operational workflows — cutting manual effort and improving reliability.
- Drive design and delivery of internal mobile and web applications from concept to production.
- Provide technical leadership, mentorship, and delivery ownership across the CAS workstream.

FOUNDER & LEAD DEVELOPER (FREELANCE) — MotoSure.in & HatoHelp.in · with Metavisionrs IT Solution Pvt. Ltd. CURRENT

FEB 2025 - PRESENT

A parallel passion project — building products for people in my free time, pro-bono, in collaboration with Metavisionrs IT Solution Pvt. Ltd. Founder and lead developer of two consumer mobile applications, owning the full product lifecycle.

- **MotoSure (motosure.in)** — a 24/7 roadside assistance platform for India offering on-demand car & bike breakdown support.
- **HatoHelp (hatohelp.in)** — "Help All, Trust One" — a community-driven, trust-based mobile platform connecting people who need help with those ready to provide it.

TECHNICAL LEAD — Wipro Technologies

OCT 2021 - JUN 2023

Working on Digital Twin platform creation using Unity 3D, Azure Services and team management.

- Developed and implemented Azure architecture for solutions as per client specifications.
- Collaborated with architects and stakeholders to develop DTDL solutions for the Energy & Utilities client.
- Designed CI/CD setup for Unity and web application automation on Azure DevOps Pipelines.
- Acquired in-depth expertise in Azure Cloud, utilizing over 10 services.
- Participated in the digitalization of P&ID to Digital Twin transformation.

SDE II — Jio Tesseract (Reliance Group)

AUG 2021 - SEP 2021

- Creation of various backend pipelines in Unity 3D for the MR-Glasses.
- Unity 3D SDK developer-relations engineer for smart glasses in-house development product.

TECHNICAL LEAD (CONSULTANT) – Outreal XR (Dubai)

MAY 2021 – OCT 2021

- Implemented a secure remote infrastructure on AWS Workspace for secure access and data management.
- Adhered to agile methodologies – daily scrums and progress tracking via Trello.
- Leveraged SME in Unity Game Engine to optimize performance and functionality.
- Provided technical leadership and managed budget, resources, assets, and vendors.

SENIOR FACULTY – GAMING – iNurture Education

2019 – 2021

- Deputed as a professor at D.Y. Patil University, Pune.
- Responsible for education and development of undergraduate students in gaming.
- Mentored students, managed project progress, and coordinated with the placement office.

SENIOR SOFTWARE ENGINEER – Wipro Technologies

2014 – 2019

- **Deputation at Saudi Aramco – Senior Simulation Engineer:** Digital Elevation Maps via GDAL; large-scale Saudi Arabia terrain at 30 m/pixel; Unity HLSL shaders for height-based coloring.
- **Collaborative framework for Oil & Gas major:** Azure Cognitive Search with ML custom skillsets; IBM Watson voice control; 3D live visualization tools; BP vessel inspection & voyage-tracking app.
- **Other Wipro teams:** Unity plugin app for EPSON Moverio BT-300; casino slot-game testing.
- **AR & VR applications:** automobile marketing app; aircraft training-simulator POCs.

// WORKS & FUN PROJECTS

★ STARTUP • MOTOSURE.IN

MOTOSURE

motosure.in

24/7 roadside assistance platform for India – on-demand car & bike breakdown support connecting stranded motorists with quick emergency help.
